## Market commentary & News

### Market commentary

#### Cautious market

The stock market continued to show caution as liquidity remained low. Despite a relatively balanced start, demand momentum gradually weakened entering the afternoon session, allowing sellers to dominate and causing the main index to close in the red territory.

At the close, the VNIndex fell by 0.25% to 1,268 pts. Furthermore, the VN30Index increased by 0.05% to close at 1,336 pts. Intraday trading volume and value reached 598 million shares/VND15,276bn, down 11%/9%, respectively, compared to the average of the last five sessions.

Foreign were still net selling, with more than VND195bn, focusing on VRE, MWG, and PVD with net values of VND132bn, VND71bn, and VND42bn, respectively. In contrast, they focused net buying on FPT, TCB, and HDG with net values of VND75bn, VND71bn, and VND60bn, respectively.

Banking saw a negative return, including VCB (-1.27%), VIB (-0.78%), BID (-0.32%), and TPB (-0.31%).

Real Estate closed in the red territory, such as KBC (-1.74%), BCM (-1.47%), VRE (-1.14%), and VHM (-0.24%).

Brokerage and Oil & Gas tickers recorded decreases, due to VND (-1.49%), PLX (-0.99%), PVD (-0.63%), HCM (-0.51%), GAS (-0.43%), SSI (-0.38%), VCI (-0.29%) và PVS (-0.29%).

Additionally, cash outflowed into large-cap stocks, like POW (-1.98%), MWG (-1.32%), GVR (-0.94%), SAB (-0.86%), BVH (-0.76%), and HPG (-0.54%).

Although the market closed with another decline, demand support around low price levels provided solid backing, limiting further losses. Moreover, the VNIndex closed above major of the key moving averages, indicating that the uptrend remains intact. In the near term, the market is expected to continue experiencing slight fluctuations, providing a good opportunity for investors to consider accumulating stocks.
