## **Market commentary**

#### **Late-session demand support**

The market continued to see a tug-of-war between buyers and sellers. However, buying demand emerged late in the session, helping the market regain its positive momentum.

The Ministry of Industry and Trade adjusted domestic retail gasoline prices during the third adjustment week in June. Accordingly, the RON95 gasoline was up by VND1,277/liter while the E5RON92 gasoline was up by VND1,169/liter. Moreover, other oil products were higher from VND1,182/liter to higher VND1,456/liter than in the previous period.

At the close, the VNIndex increased by 0.39% at 1,352 pts. Meanwhile, the VN30Index increased to 0.44% to close at 1,439 pts. Intraday trading volume and value reached 794 million shares/VND18,760bn, down 15%/14%, respectively, compared to the average of the last five sessions.

Foreign were net selling, with more than VND893bn, focusing on FPT, VHM, and STB with net values of VN388bn, VND120bn, and VND101bn, respectively. In contrast, they focused net buying on DGW, SSI, and CTG with net values of VND62bn, VND61bn, and VND47bn, respectively.

Banking sector performed well, led by TCB (+3.66%), LPB (+1.41%), CTG (+1.37%), SSB (+0.84%), BID (+0.42%), HDB (+0.23%), and MBB (+0.20%).

Retail sector also closed in green territory, including DGW (+6.95%), MWG (+0.47%), PNJ (+0.37%), and FRT (+0.06%).

Real Estate stocks gained, supported by KBC (+3.01%), VIC (+1.59%), SSH (+0.45%), VHM (+0.42%), and VRE (+0.20%).

Additionally, cash also flowed into large-cap stocks, like GVR (+3.10%), PLX (+1.41%), GAS (+1.27%), VJC (+0.91%), and VNM (+0.18%).

Although the market ended the session with gains, liquidity remained low, indicating that investor sentiment is still cautious and cash flows are not yet fully supportive of a clear trend. Therefore, investors are advised to observe and wait for clearer market signals.
